Power Dynamos head coach Oswald Mutapa says the defending champions must demonstrate why they won the league when they open their MTN Super League campaign against Konkola Blades...

pg 5

"I'M READY TO WORK AND DELIVER" – HAALUBONO

By Lucky Chama

Copper Queens interim head coach Charles Haalubono says he is ready to work and deliver as Zambia prepares to face Uganda in the first leg of the second round of the 2028 Olympic qualifiers.

Zambia will travel to Kampala for the October 8, 2026 encounter against the Crested Cranes, with the Copper Queens seeking to recover from their disappointing 2026 Women's Africa Cup of Nations (WAFCON) campaign.

Haalubono says the team has responded positively to training and is showing signs of improvement after initially struggling to find its rhythm.

Speaking to FAZ Media after Thursday's training session at the University of Lusaka football field, Haalubono said the players had become sharper following five days of preparations.

"So far, the response has been very good. They are all looking good now. The start was not all that good. They looked clumsy, but after five days of training we saw a bit of change. Now, starting this week, they are sharp; their reactions are up to that level," Haalubono said.

The Green Buffaloes Women coach said the team had taken important lessons from the WAFCON, particularly regarding ball possession and movement, but acknowledged the need to improve defensively.

Haalubono said reducing the number of goals conceded would be a major focus against Uganda as Zambia looks to secure a place at the Olympic Games.

"This is a very important fixture for us. We keep reminding each other about our performance at WAFCON, so we have got a big duty ahead of us to give the nation what it deserves because we failed to qualify to the World Cup," he said.

"We have another chance of amending our mistakes, so we are supposed to qualify for the Olympics."

The coach said the technical bench had placed particular emphasis on strengthening the defence while improving the team's movement in possession.

Haalubono said Zambia's experience from the last two Olympic Games would provide valuable lessons, although he stressed that the team must concentrate on the present challenge rather than rely on past achievements.

He described Uganda as an athletic side that uses direct football and long balls, warning that the Copper Queens must be prepared to deal with that approach.

"We are here to work and to deliver; so it's not something that we should even try to shun away. On my part, I'm ready to work and deliver," Haalubono said.

The interim coach also expressed appreciation to the Football Association of Zambia (FAZ) for strengthening his technical bench with experienced coaches Florence Mwila and William Zulu.

Haalubono said the two assistants bring valuable knowledge of women's football in Zambia as the Copper Queens prepare for the two-legged Olympic qualifying tie.

The second leg against Uganda will be played on October 15 at Levy Mwanawasa Stadium in Ndola, with the aggregate winner advancing to the third round of qualification.

ZAMBIA TO FACE EGYPT IN FINAL FRIENDLIES AHEAD OF FUTSAL AFCON

By Enock Phiri

Zambia's national futsal team will face Egypt in two international friendly matches as part of their final preparations for the 2026 TotalEnergies CAF Futsal Africa Cup of Nations in Morocco.

The Cristoforetti-led Copper Bullets will take on Egypt on October 4 and 6 in Cairo, with the two matches providing a stern test against one of Africa's established futsal nations ahead of the continental tournament.

The team left Kenneth Kaunda International Airport at 13:30 hours aboard South African Airways and arrived at O. R. Tambo International Airport in Johannesburg at 15:30 hours before connecting to Egypt on a 21:00-hour flight.

The friendlies will give coach Cristoforetti an opportunity to assess his players against high-level opposition while fine-tuning the team's tactical and technical approach before the tournament.

Zambia have been drawn in Group A alongside hosts and defending champions Morocco, Libya and debutants Algeria.

The Copper Bullets will open their campaign against Libya on October 12 at Salle Prince Moulay Abdellah in Rabat.

They will then face hosts Morocco on October 14 at the same venue before completing the group stage against Algeria on October 16 at Salle Ibn Yassine in Rabat.

The 2026 Futsal AFCON will run from October 12 to 21, making the Egypt fixtures Zambia's final competitive preparation before the continental challenge.

ZAMBIA'S 14-MAN AFCON FUTSAL SQUAD

Goalkeepers:

Patrick Banda — Lusaka Automotive
Musa Chiwaya — Kafue Celtic

WE ARE NOT SCARED OF NKANA - HACHIPUKA

By Lucky Chama

Newly promoted Trident Football Club head coach Kebby Hachipuka says his side is not intimidated by Nkana as they return to the MTN Super League.

Trident will begin their Stream A campaign at home against the Kitwe giants this afternoon, with Hachipuka insisting his players have the courage to compete for maximum points.

Hachipuka said the team had benefited from a 10-day pre-season tour in Lusaka, followed by a further period of preparation and friendly matches on the Copperbelt.

He said the preparations had given the players confidence ahead of their return to top-flight football.

"Football is one. What is important is courage. We have pysched them and they have shown during some friendly games that they can do it," Hachipuka said.

He acknowledged Nkana's stature in Zambian football but said Trident would approach the encounter with respect rather than fear.

"It is a tough one. I know Nkana is one of the biggest teams in Zambia. But we are not scared of them. We can only give them respect but we cannot be intimidated," he said.

Hachipuka said Trident would be aiming to make a strong statement in their first home match in the Super League.

"They should expect a good game. At the same time, they should expect a victory. Playing at home for the first time in the Super Division, I think we really need to give them maximum points," he said.

Meanwhile, Nkana head coach Elijah Tana said his team had prepared well for the opening fixture and would not underestimate the newly promoted side.

He said the players had continued to work hard following their pre-season camp in Botswana.

"The preparations went well. Since we came from Botswana, the boys are putting 100 percent to us as technical," he said.

The Nkana coach acknowledged that playing away against a newly promoted side would not be straightforward but said the team had developed a plan for the encounter.

"I know it's not an easy game. But for us, we've already planned for it. So we go with our plan," Tana said.

Tana said Nkana were targeting a positive start to the transitional league, while warning his players against underestimating Trident.

"We want to start with a positive result. As you can see, Nkana is a big team, so we can't underrate the newly promoted side, Trident," he said.

He further challenged his players to give their all in pursuit of the three points and urged Nkana supporters to back the team throughout the campaign.

"Our fans should come and cheer us. They should have that belief in us. We can do our best when they are behind us," Tana concluded.

GREEN EAGLES READY FOR TOUGH MUFULIRA WANDERERS TEST

By Lucky Chama

Green Eagles head coach Perry Mutapa says his side is ready for a difficult opening assignment against Mufulira Wanderers in the MTN Super League transitional season.

Green Eagles will face Wanderers away at Shinde Stadium in Mufulira this afternoon in a Stream B encounter, with Mutapa acknowledging the challenge posed by the Copperbelt side and the condition of the pitch.

Mutapa said his team used the extended pre-season period to work on various aspects of their game and believes the squad is adequately prepared for the new campaign.

"We had planned for the six-week programme, so it's good that we have worked on almost all the aspects of the game," Mutapa said.

He described Stream B as a difficult group that includes the likes of ZESCO United and CAF Confederation Cup participants Red Arrows, as well as Mufulira Wanderers and Kabwe Warriors.

"It's a tough stream. We have Red Arrows, who are playing CAF, and ZESCO, who are always one of the toughest teams. It's not going to be easy, but we are just focusing on ourselves as Green Eagles to do better," he said.

On the opening fixture against Wanderers, Mutapa said his players were ready despite the anticipated challenge of playing at Shinde Stadium.

"We are very ready. It's a difficult pitch, but we are geared to do well in tomorrow's encounter," he said.

Mutapa is also encouraged by the impact of the club's new signings, including Joe Yolan from FC Leopard and Rickson Ngambi, saying they have added depth and quality to the squad.
"I think they have dealt well and they have brought something different to the team. In terms of depth, we can say we are better than last season," he said.

The coach said the team's pre-season preparations, including a training camp in South Africa where they faced African champions Mamelodi Sundowns twice, had provided valuable preparation ahead of the league.

Mutapa said the transitional format makes a positive start particularly important, with teams having little room for a slow beginning.

"The transitional league is very tricky because you just don't do well in a few games and find yourself in the drop zone. So, the first games are always important. We just have to do well in the first games," he said.

Green Eagles head into the opening fixture without any major injury concerns.

KUNDA JOINS GREEN EAGLES TECHNICAL BENCH

Meanwhile, Mutapa has confirmed former Zambia international defender Warren Kunda has joined the Green Eagles technical bench as one of his assistants following his retirement from playing.

Kunda, who spent more than two decades playing at the highest level for clubs including Mufulira Wanderers, Nkana and Green Eagles, brings extensive experience into the coaching setup.

Mutapa said Kunda's leadership qualities made him a natural addition to the technical bench.

"Warren Kunda has given the game more than 20 years, playing for the likes of Wanderers, Nkana and Eagles and some other teams. Having played the game for more than 20 years at the highest level, he has been a leader in all the teams he has played," Mutapa said.

"It was just good that now we have roped him in as one of our assistants because I feel he has been a leader for so long. He has to help us. So, he's one of our assistants."

Mutapa also praised Green Eagles' sponsors for supporting the club's preparations, including providing a new team bus and facilitating the South African pre-season programme.

He called on supporters, particularly those on the Copperbelt, to continue backing the team as the season gets underway.

MWIINGA VOWS UNITY AS ATLETICO LUSAKA FACE AGUILA

By Lucky Chama

Atletico Lusaka FC will this afternoon face Aguila Stars FC in a Week Two encounter of the ZPL National Division Southern Zone transitional season.

The match is scheduled for 13:00 hours at Toyota Arena, with Atletico Lusaka looking to build on their opening-week performance against Kafue Celtic.

Atletico captain Raymond Mwiinga will lead the side into the encounter after wearing the captain's armband for the first time in the club's 26 September meeting with Kafue Celtic.

Mwiinga described the appointment as a major privilege and credited the technical bench and his teammates for their support.

"It's a privilege to be selected as captain for a great team like Atletico Lusaka FC. It comes with great honour to lead a group of such special players and I will do so with pride," Mwiinga said.

The captain said he would work with his teammates and the technical staff to promote unity, commitment and passion within the dressing room.

Reflecting on the opening match against Kafue Celtic, Mwiinga said it was a difficult encounter, with Atletico Lusaka's failure to convert their chances proving costly.

He said the team would work on its finishing ahead of the meeting with Aguila Stars.

Mwiinga expects another competitive encounter this afternoon, noting that Aguila Stars possess qualities similar to their previous opponents, particularly in ball retention.

The two sides met during pre-season, with Atletico Lusaka emerging 4-3 winners, and Mwiinga said that experience had given him an insight into what to expect from Aguila.

He, however, expressed confidence in the technical bench and his teammates to put up a strong performance and secure a positive result.

The Atletico Lusaka captain's leadership will therefore be put to another test as the club seeks to make a strong start to the transitional campaign.

DAKA RULED OUT FOR WEEKS WITH THIGH INJURY

By Lucky Chama

Hamburger SV striker Patson Daka is set to spend several weeks on the sidelines after sustaining a muscle injury while on international duty with Zambia.

The Bundesliga club confirmed that Daka returned from the Chipolopolo camp with an injury following Zambia's 3-1 defeat to Algeria in the 2027 Africa Cup of Nations qualifier last Friday.

Hamburger SV said detailed MRI scans conducted at the Athletic um at Volkspark revealed that the Zambian forward suffered a torn muscle fibre in his left thigh.

"Patson Daka has returned from the Zambian national team with an injury. Detailed MRI scans conducted at the Athletic um at Volkspark have now revealed the precise diagnosis: the Zambian has suffered a torn muscle fibre in his left thigh and will be sidelined for the coming weeks," the club said in an injury update.

Daka was substituted during Zambia's defeat to Algeria, with the injury now ruling him out for the coming weeks as he begins his recovery.

The injury is a setback for both the striker and Hamburger SV as the club continues its Bundesliga campaign.

"Get well soon, Pato!" the German club added.

WE HAVE TO SHOW WHY WE ARE CHAMPIONS - MUTAPA

By Lucky Chama

Power Dynamos head coach Oswald Mutapa says the defending champions must demonstrate why they won the league when they open their MTN Super League campaign against Konkola Blades.

Mutapa said Power Dynamos are targeting a positive start despite expecting a difficult encounter away from home.

"We are champions, so we have to show why we are champions. Go out there. We won the league last time," Mutapa said.

The Power Dynamos coach noted that the match will be played at a difficult venue, recalling that the club were confirmed as champions in Chililabombwe last season.

"Our last game that we were confirmed as champions was in Chililabombwe. It won't be an easy game, a very difficult ground to go to, but I feel we should be able to get the result as we go there," he said.

Mutapa said preparations had continued in his absence while he was away on national team duty, with the squad completing three training sessions.

"We have had three sessions. Whether I'm not there or I'm here, I think the most important thing is that the team is here. It's only me that was out in terms of the technical bench, but the rest were around," he said.

"The job didn't sleep. Everyone was working."

He added that decisions regarding players who were available for the club and those involved with the national team were made in the interest of the team.

Mutapa also urged Power Dynamos supporters to turn up in numbers and provide moral support.

"As always, we ask them to come in numbers to give the moral support to the team. Of course, we want to give them the result," he said.

Meanwhile, Konkola Blades head coach Beston Chambeshi says his side is ready for the new season after a month of intensive preparations.

Chambeshi said the team had used a series of high-profile friendly matches to assess its readiness, with the players showing a strong working spirit.

"I think the team is ready for the coming season. We had high-profile friendly matches. We played against Power, Nkana Wanderers, Zesco and Nchanga. I think we had some wins and losses," Chambeshi said.

He said the squad had remained largely intact and had developed the combination needed to compete.

"I think the team is intact and the combination is there. The working spirit they have shown us, I think we learned a lot from the games we played. I'm happy with what we went through and for sure we have a team which can stand any pressure," he said.

Chambeshi welcomed the prospect of beginning the campaign against the defending champions, saying the fixture could give his players confidence.

"It's good. We're starting with a big team like Power and one good thing, we're in the same league. It's good for the players, even for our supporters to come in numbers and watch this game," he said.

He said Konkola Blades would not make premature promises about their final league position but would target an improvement on last season's ninth-place finish.

"We are all aiming at finishing the league on a good note. As you said, we finished ninth, so we have to go a step further now," Chambeshi said.

He added that a strong finish could also secure the club a place in the Absa Cup.

"It will be good for us to finish on a good note so we can play the ABSA Cup," he said.

Chambeshi also appealed to supporters, particularly those on the Copperbelt, to continue believing in the team.

"Let them believe in this team. Let them have confidence in this team," he said.

ARSENE WENGER, MOHAMED OUAHBI, BUBISTA, HOSSAM HASSAN, SÉBASTIEN DESABRE AND OTHERS LINE-UP FOR CAF STRATEGY CONFERENCE PANEL DISCUSSION

By CAF Media

FIFA's Chief of Global Football Development and former Arsenal mentor Arsene Wenger will join some of the Coaches who were behind the success of Africa's National Teams at the FIFA World Cup 2026, including Cabo Verde's Bubista, Egypt's Hossam Hassan and DR Congo's Sébastien Desabre, in what is expected to be an insightful panel discussion at the CAF Strategy Conference next week.

The CAF Strategy Conference, to be held in Cabo Verde between 07-09 October, will bring together Coaches from Africa's 54 Member Associations, football legends and stakeholders under one roof discussing ways to advance football development in Africa.

CAF TV will broadcast several of the sessions in Cabo Verde, while the remainder of the discussions between coaches and technicians will be behind closed doors.

CAF will publish the times and programme of the events that will be beamed live in due course.
Today, CAF can confirm the Panel Discussion to be led by Wenger around the FIFA World Cup 2026, where Africa saw a record-breaking nine of its 10 participants advance to the Knockout Stages of the Competition.

Bubista, the man who led Cabo Verde's heroics at the global finals, has since become a household name. Back in his home country, he will be sharing insights behind his team's performance at the tournament.

Mohamed Ouahbi guided Morocco to the Quarter-finals as the Atlas Lions again consolidated their reputation as one of the leading sides in the world.
Hassan, the former Egypt striker who is now at helm of his country's senior national team, led The Pharaohs to their first win at the FIFA World Cup and was instrumental in their run that included a nail-bitting clash with Argentina, where they led by two goals until the final stages of the match.

Desabre coached the Democratic Republic of Congo, who made a return to the global stage after a 52-year absence, and guided them to the round of 32.

MOSIMANE SET TO MAKE WHOLESALE CHANGES FOR BAFANA'S FRIENDLY AGAINST EGYPT

By SAFA Media

Bafana Bafana coach Pitso Mosimane is set to make wholesale changes when his charges face Egypt in an international friendly match at the Cairo International Stadium on Sunday night. Kickoff is at 21h00 Cairo time.

Mosimane told www.safa.net on Friday afternoon that his intention was always to give a run to all the members of the team at some stage of this extended three-match camp of two 2027 Africa Cup of Nations qualifiers against Guinea and Eritrea, and the friendly against the Pharaohs. The Bafana Bafana coach is set to introduce all the players that are yet to feature, and he has appealed for patience and support when the South Africans face the Egyptians.

"We are pleading for patience and support for them. They are breaking through and we need to see what we have in our ranks. Unfortunately we have a big team (Egypt) that we have to play against on Sunday. The challenge is we have to let them (the players) swim with the sharks, but we've got nothing to lose," he said.

"It is a friendly game and we need to see what they are capable of at this level. So we plead for patience and support for these youngsters. The country must understand that we have played the qualifiers (against Guinea and Eritrea) and we are done. That is the most important thing. It is important to build for the next FIFA World Cup and if we don't put them in now, when are we going to see them? We do not have friendly games until the Africa Cup of Nations next year, so this is the only chance they have."

Goalkeepers Sipho Chaine and Ricardo Goss are expected to see some action and so will the likes of Fawaaz Basadien, Khulumani Ndamani, Shandre Campbell, Puso Dithejane, Tashreeq Matthews and Cassius Mailula, among others.

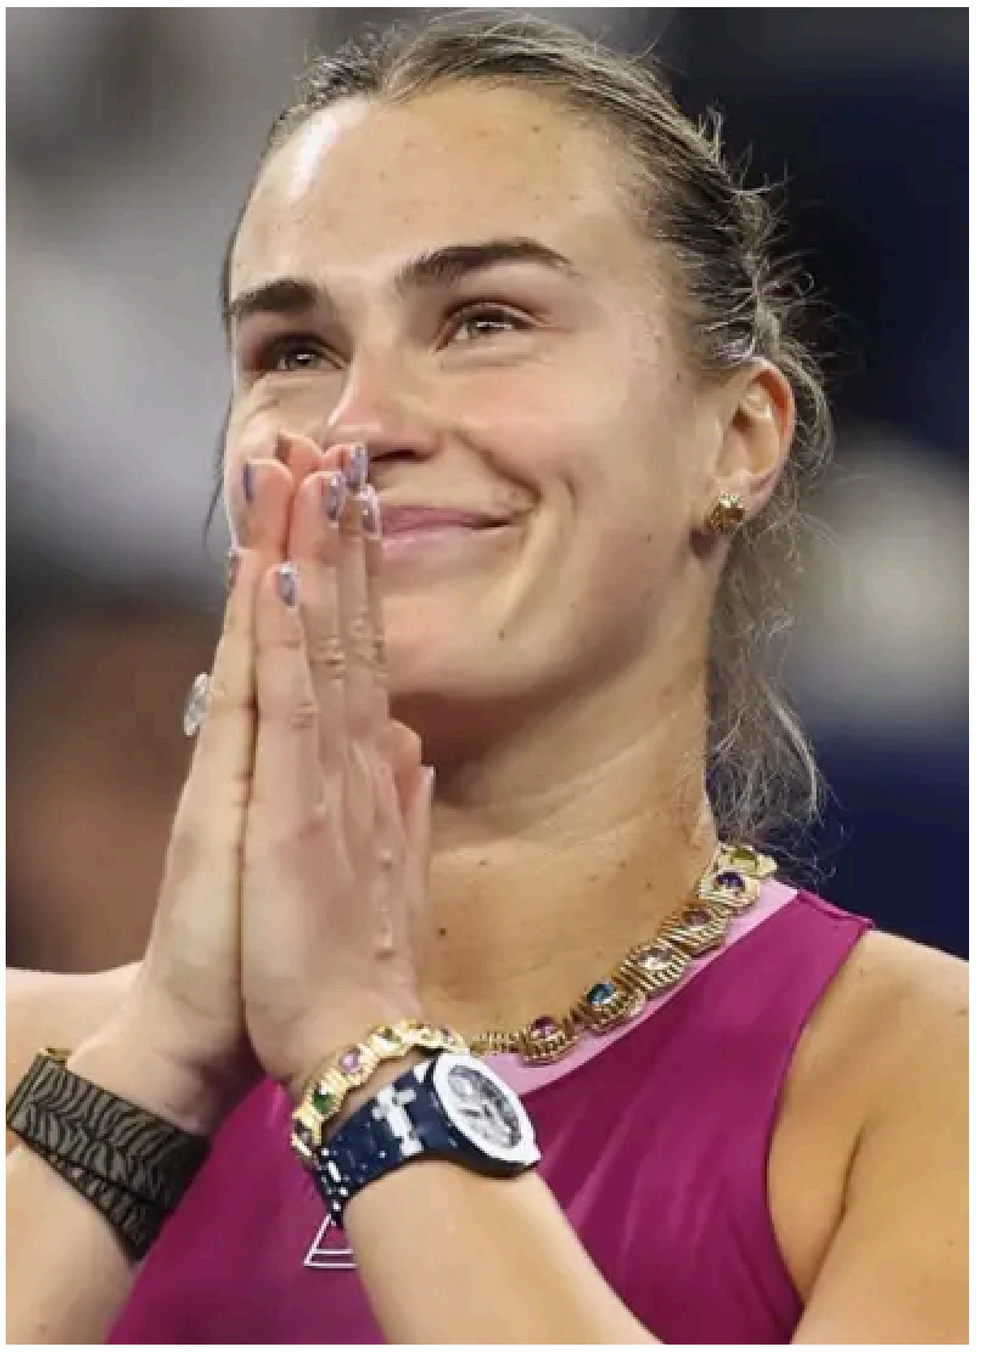

Mosimane said he has also kept a close watch on the talent that is emerging from the South African Under-20 and Under-23 men's national teams. The SA Under-20 men's national team confirmed their dominance in the region when they won back-to-back COSAFA U20 Men's Championships this past weekend.

The U23s kicked off their 2028 Los Angeles Olympic Games preparations on a positive note when they came from behind to defeat a stubborn Algeria 3-1 at the Dr Rantlai Petrus Molemela Stadium in Bloemfontein on Thursday.

"We saw the U23s, we watched the game and we are happy with what we saw, we are happy with the prospects."

SABALENKA 'TRYING HARD TO BE EASIER ON MYSELF'

By BBC

Aryna Sabalenka said she was "trying so hard to be easier on myself" as she began her China Open campaign with victory over Renata Zarazua.

World number two Sabalenka hit 11 aces and did not face a break point in a 6-1 6-3 victory over the Mexican.

The Belarusian needed just 63 minutes to win her first match since losing her world number one ranking and her US Open crown to Elena Rybakina in September.

The 28-year-old is bidding for her first title since completing the 'Sunshine Double' in March, when she won Indian Wells and the Miami Open back-to-back.

It has been a mixed year for Sabalenka by her high standards. She will finish without a Grand Slam trophy for the first time since 2022 and has often struggled to control her frustrations on court.

Asked about being so self-critical, Sabalenka said: "I think this is a good and a bad side of my personality, that I always ask and wait for more from myself.

"Sometimes it can drive me forward, but sometimes it can really drain my energy.

"Maybe this is something I have to finally learn. I'm really trying so hard sometimes to be easier on myself."

Sabalenka will face Czech 20-year-old Nikola Bartunkova - who came close to beating her at the Berlin Open in June - in the third round.

Top seed Rybakina begins her campaign at the WTA 1000 event on Saturday.

Earlier, Britain's Katie Boulter fell 7-6 (7-3) 6-1 to Wimbledon runner-up Karolina Muchova, while French Open champion Mirra Andreeva recovered to beat Chinese wildcard Yuan Yue 3-6 6-0 6-0.

In the men's event, sixth seed Daniil Medvedev produced 12 aces to beat Spain's Pablo Carreno Busta 6-4 6-2.

British pair Julian Cash and Lloyd Glasspool advanced in the doubles, beating Russia's Andrey Rublev and Karen Khachanov 6-3 6-4.

Djokovic battles through

Novak Djokovic progressed to the third round of the men's tournament with a 4-6 7-6 (7-2) 6-2 victory over China's Bu Yunchaokete.

The six-time champion, who has never lost in Beijing in 31 matches, was given a scare by Bu after he dropped the first set.

Djokovic needed a medical timeout after giving back a break in the second set, accepting a time violation as he fought to regain his breath between points.

The 39-year-old Serb then consulted the trainer, as he had in his first-round win over Nuno Borges, but he dominated the tie-break.

Djokovic found his rhythm in the decider as he won four games in a row sealing victory after two hours and 52 minutes with a backhand winner.

He will face either US Open champion Alexander Zverev of Germany or China's Shang Juncheng on Saturday for a spot in the quarter-finals.
